

SUMMARY

Salil Gupta is an Senior Interactive Developer L1 working out of Publicis Sapient's Gurgaon, India office. He joined Sapient recently in the month of June 2018 and is looking to explore Publicis Sapient's pool of opportunities.

He has previously worked in Service as well in the Education sector. In the educational industry, he worked at Pearson India Educations, where he was part of the team that developed a reporting tool for a new course introduced to be used in 1800 schools all over India. This reporting tool is very useful for teachers and parents to track the progress of their students/children. Prior to Pearson, he was associated with Accenture Solution Pvt Ltd where he delivered a number of the automated solutions for the client Merck Pharmaceutical resulting in the reduction of 9.33 FTE along with this he also delivered a complete UI dashboard that controlled the complete release process of Client's e-commerce website. In both the organizations, he majorly worked as a JavaScript Front End Developer. While working in these different outfits, he acquired expertise in the following Skills, HTML5, CSS3, JavaScript, React JavaScript, Redux, React-Native, Robotics Process Automation. Apart from these technical skills, the things that make Salil stand out are that he is a Certified Scrum Master, also brands himself as an innovator. Salil as an innovator filed a patent for a device he invented in his tenure at college wherein he pursued his Bachelors of Engineering in Computer Science from the University of Pune. The device he invented aims to prevent accidental deaths caused due to two-wheeler accidents.
